Autobiography

I was proud of being a contributor in international finance research community and also provided more effective research outcomes connected with governmental policies and academic institutions. I always provide advice and telling companies how to manage their businesses well and avoid risks and assist owners and chief executive officers with financial management and risk-control managements;in addition, providing advisory and useful suggestions to the investors and decision makers.

Up to now, there're totally fifteen textbooks published including six professional financial publications and five local textbooks since 2004 and four foreign textbooks had been published in LAP LAMBERT Academic Publishing since 2012.

I enjoy myself in doing research and expect to get more good quality papers published in SSCI/SCI high impact factor journals in the coming future. I still make the best of time to move forward and contribute my research to academic community in academic field.
