2. Four Investment Ratios That Can Help You Make Money

<http://isites.nhu.edu.tw/yschao/doc/6224>

3. Can You Become Rich Investing in Mutual Funds?

Investing is one of the most popular ways to create wealth. By taking on a certain degree of risk, you can put your current assets to work for you and generate short- or long-term income, depending on your investment goals. Of course, the more risk you take on, the greater the likelihood of both success and failure. It is for this reason that riskier securities, such as stocks, are traditionally considered the go-to investments for those looking to strike it rich. 請查詢下列網址
